

# Windows 10 and LD Assistant AC14.5v1

After installing LD Assistant you may need to change User Account Control settings.

(1) Do this by clicking on the start button then click on Settings.

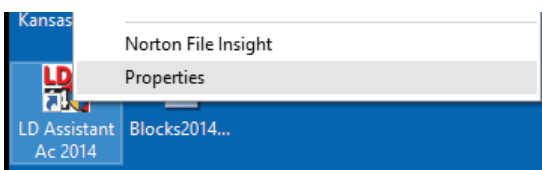

(2) When the SEARCH window opens type in Change User Account Control. Now click on Change User Account Control settings.

(3) When the Change User Account Control settings window opens, drag the slide to Never notify then click on the OK button and restart your computer.

(4) Once the computer restarts Right mouse on the LD Assistant Icon and click on Properties.

(5) When the Properties window opens... put a check mark by... Run this program in compatibility mode for Windows 7.

and by... Run this program as an administrator

Click Apply and click the OK button.
